

Symphony Musician Profession

Did you know?

- Being a professional symphony musician is a <u>full-time job!</u>
- Rehearsals are just one part of their work week!

FUN FACT!

Professional musicians at The Phoenix Symphony on average have 38 to 42 weeks of concerts per year! That is a lot of playing!

Symphony Musician Career

What does the career of a symphony musician look like?

- · Start playing an instrument at a young age
- Go to college and study music
- Get a bachelors, masters and maybe even a doctorate in music!
- Audition for many symphony orchestras
- Get offered a symphony job!

Alex Laing-Principal Clarinet

Cassie Walck-Associate Principal Horn

Open Rehearsals

Open Rehearsals for 2023-2024

Friday October 13, 2023

Recommend Grades: 7th-12th

Performance: Brahms and Dvorak

Location: Mesa Arts Center, 1 E Main Street Mesa AZ 85201

Conductor: Tito Muñoz

Thursday November 2, 2023

Recommend Grades: 7th-12th

Performance: Beethoven's Fifth and Magnificent

Mendelssohn

Location: Symphony Hall, 75 N 2nd Street Phoenix AZ 85004

Conductor: Vinay Parameswaran Guest Artist: Alena Baeva, violin

Friday February 2, 2024

Recommend Grades: 7th-12th

Performance: Rodrigo's Concierto de Aranjuez

Location: Mesa Arts Center, 1 E Main Street Mesa AZ 85201

Conductor: Ankush Kumar Bahl

Guest Artist: Pablo Sáinz Villegas, guitar

Friday February 23, 2024

Recommend Grades: 7th-12th

Performance: Mardi Gras in New Orleans

Location: Orpheum Theatre, 203 W Adams Street Phoenix A

85003

Conductor and Guest Artist: Byron Stripling, conductor and

trumpet

Friday March 8, 2024

Recommend Grades: Grade 12- College Students

Performance: Rachmaninoff & Dvorak

Location: Mesa Arts Center, 1 E Main Street Mesa AZ 85201

Conductor: Lidiya Yankovskaya Guest Artist: Joyce Yang, piano

Tito Muñoz | Virginia G. Piper Music Director

Open Rehearsal- General

What is an open rehearsal?

An open rehearsal is where an audience is invited to watch a symphony rehearsal in progress and learn about the inner workings of music making.

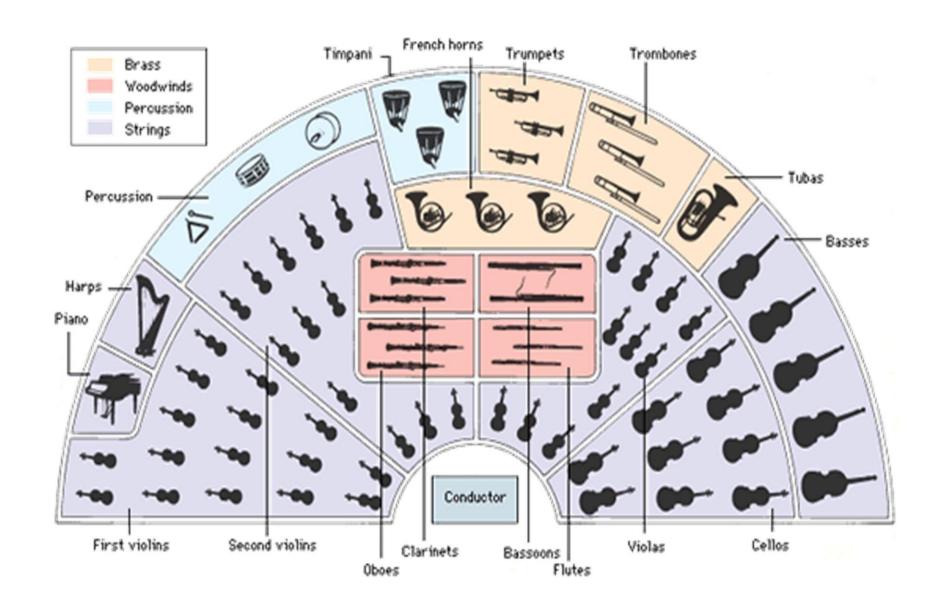

What happens during a rehearsal?

- The conductor rehearses the orchestra for the upcoming performance!
- The production crew sets up the stage and works behind the scenes to make sure technical aspects are working smoothly.
- The Phoenix Symphony staff is there making sure the musicians have everything they need.

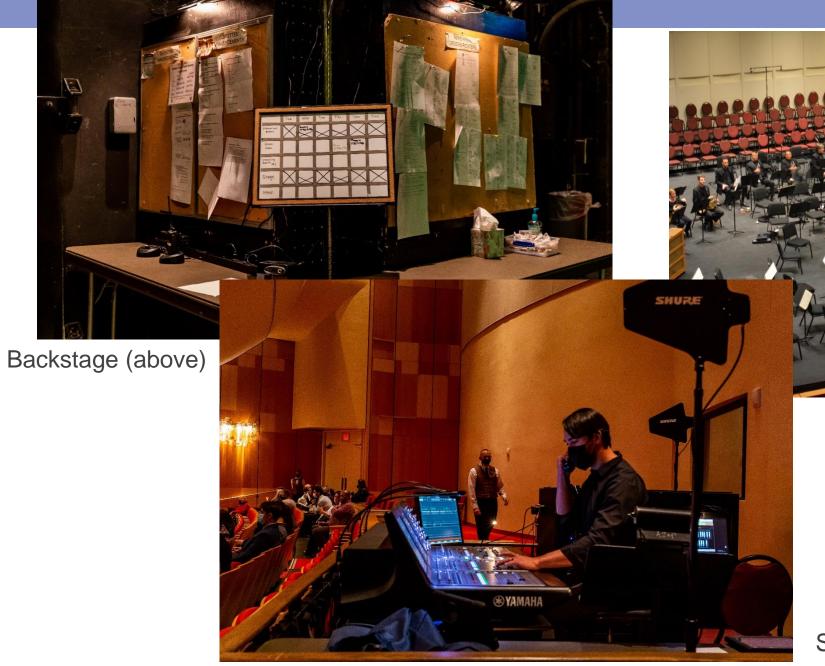

Open Rehearsal- General

Ariel view of stage (above)

Open Rehearsal- General

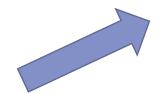

Why is rehearsing important?

- Orchestral rehearsal is a huge part of being a symphony musician!
- Collaboration and teamwork is one of the most important parts of being a professional musician!
- . Musicians practice their music on their own and then during full orchestra rehearsal, get to come together and practice as a group.
- Rehearsal is where their individual parts fit into the whole piece of music.

FUN FACT!

Some pieces aren't written for full orchestra! Some have only brass, woodwinds, or any other combination you can think of!

LEARNING CORNER:

What is a full orchestra?

A full orchestra is a large ensemble composed of wind, string, brass and percussion instruments. For us, that is 65 musicians!

How often do musicians rehearse individually vs. together?

 Full orchestra practice- The full orchestra rehearses together a few times per week before their upcoming weekend performance

Individual musician practice- It depends! Musicians practice on their own as much as they need to feel prepared for full orchestra rehearsals

Why do they need to rehearse if they are professional musicians?

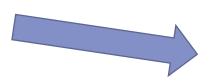

- Just like a professional athletes practices plays in a playbook as a team before the game, musicians need to practice their music together before a concert!
- Just like an athlete works out their body before a full team practice, a musician practices their music individually before coming to a full orchestra rehearsal!

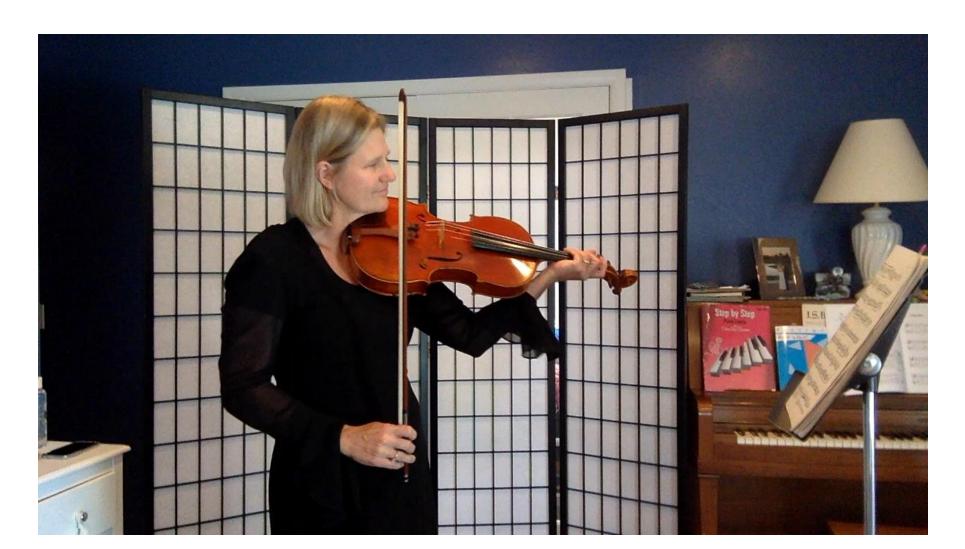

Check out one of our viola players, Karen Bea, talk about musicians as athletes on the next slide!

https://www.youtube.com/watch?v=S_-yn015E64

What are they rehearsing?

- The musicians rehearse the music for the upcoming weekend performance.
- Each rehearsal is different. The conductor decides what the rehearsal order will be and makes notes during the rehearsal about which sections they need to work on and rehearse again.

FUN FACT!

At some rehearsals, the musicians may not play all pieces on the performance program!

What are the musicians wearing?

For performances, the musicians wear formal clothes, but for rehearsal they can wear whatever makes them feel most comfortable!

FUN FACT!

Musicians call their clothes they wear to performances "concert blacks".

Inner workings of rehearsal

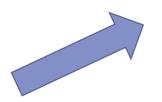

Open Rehearsal- Inner workings

What does the conductor say to the musicians during rehearsal?

- When the conductor is speaking to the musicians, they are telling them something important about the music and how it should be played.
- Examples of corrections: When a note should start or end, how to better play as a section, tuning, or rhythm checks.
- The conductor comes to rehearsal with a plan, just like the coach of a sports team!

LEARNING CORNER:

What is a section?

A section refers to the instrument families in the orchestra. For example, strings, woodwinds, brass and percussion.

What does the conductor have on their music stand?

The conductor can have a variety of things on their music stand! They have the full score, a pencil, possibly a metronome for tempo checking,

their baton, and more!

LEARNING CORNER:

What is a metronome?

A device used by musicians that marks time at a selected rate by giving a regular tick. There are electric metronomes (bottom left) and mechanical metronomes (bottom right)!

FUN FACT!

The pedestal the conductor stands on is called a podium!

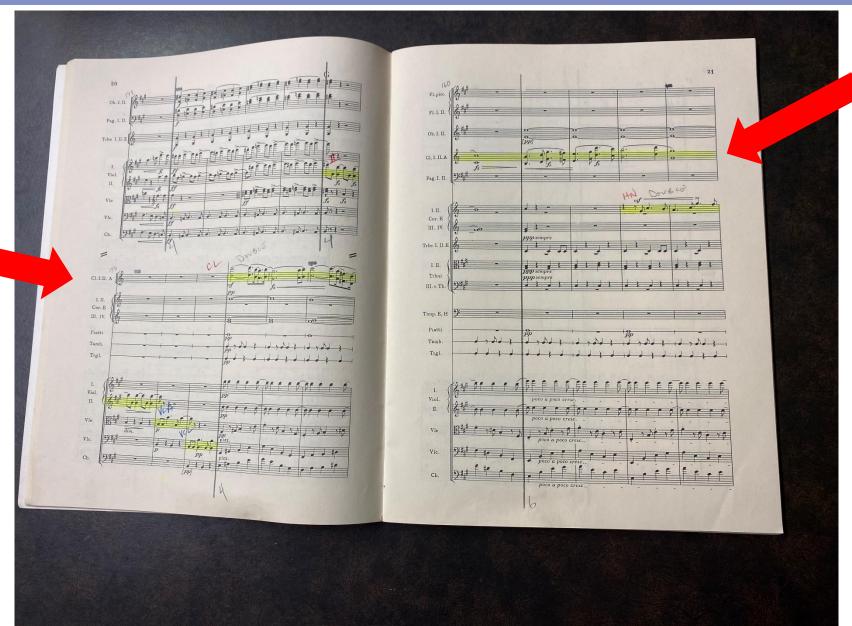

Conductor's baton

How do the musicians know where to start playing when they are rehearing different sections of the music?

Composers use the indication measure numbers, "bars" or alphabet letters, to help the musicians and conductors quickly and efficiently find their place in the music. A measure number or "bar" refers to a specific place in the sheet music.

FUN FACT!

Each measure has a number. Some pieces of music are so long that composers will use letters for large sections to make it easier to navigate the music!

Check out more sheet music in two slides!

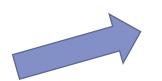

What are the musicians doing when they write something down?

- When musicians stop playing and write something down on their music, they are making a memo for themselves to improve their playing.
- They might mark a difficult passage, indicate the conductor's directions, misread notes, to play louder or softer, faster or slower, or whatever else helps them play!

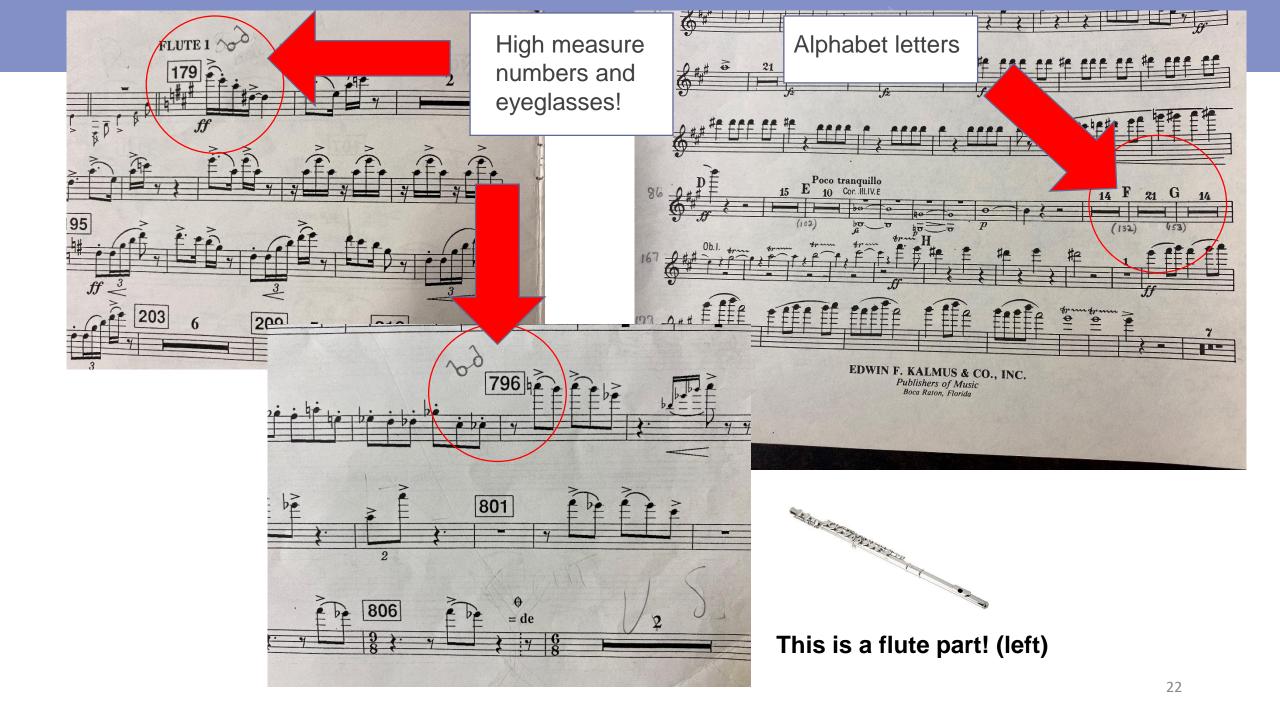

FUN FACT!

Some musicians draw little eyes or glasses on their sheet music to remind them to look up at the conductor during a specific part of the music!

LEARNING CORNER:

Musicians ALWAYS have pencils with them at rehearsal!

Tuning

The Phoenix Symphony

Tito Muñoz | Virginia G. Piper Music Director

Open Rehearsal-Tuning

Why does the first violin stand up and play one note in front of the orchestra?

- That is called <u>tuning</u>!
- When the first violinist stands up and plays an A note, they are doing two things:
 - 1) Letting the rest of the musicians know rehearsal is about to begin
 - 2) Giving the entire ensemble a reference pitch (an A) so they can each tune their instruments.

FUN FACT!

The first violin is called the Concertmaster.

What is tuning?

• Tuning means adjusting the pitch of an instrument using a tuner. In Western classical music, orchestras tune to an A at 440 hertz.

FUN FACT!

The tuning of an instrument can change because of the weather!

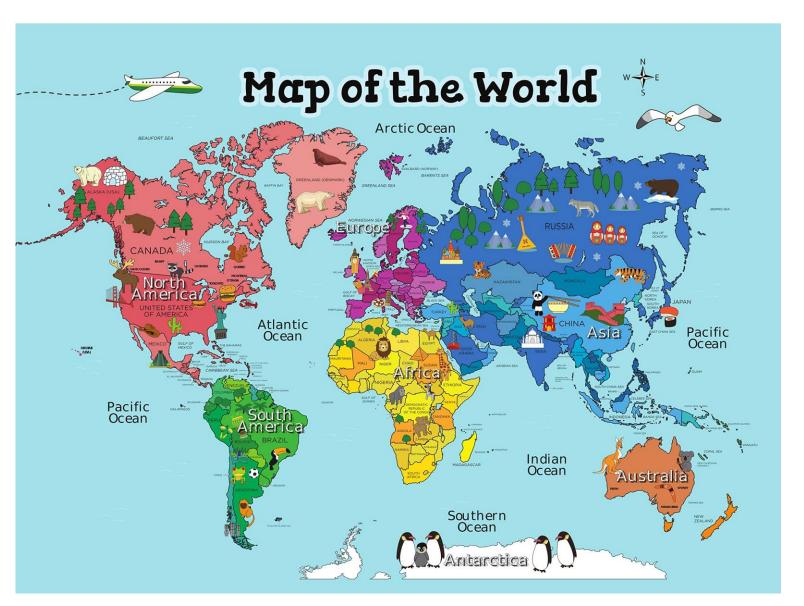

Electric Tuner

Open Rehearsal-Tuning

FUN FACT!

In other cultures around the world, musicians and musical groups use different tuning systems!

Please enjoy rehearsal!
